

APPLICATION FOR PERMIT

Serial No. 6192

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office JUL -3 1920
Returned to applicant for correction
Corrected application filed

The undersigned HOLCOMB BROTHERS, a partnership,
Name of applicant.

of RENO, County of WASHOE,

State of NEVADA, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation give date and place of incorporation.)

1. The source of the proposed appropriation is underground waters
Name of stream, lake, or other source.
underlying and entering Secs. 10, 15, 16, 21 & 22, T. 19 N., R. 20 E.

2. The amount of water applied for is twenty second-feet.
One second-foot equals 40 miners' inches.

3. The water to be used for irrigation, stockwatering and domestic
Irrigation, power, mining, manufacturing, domestic, or other use.
purposes.

4. The water is to be diverted from its source at the following point: NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 15, T. 19 N., R. 20 E. Developing cut extends south-
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section-corner. If on unsurveyed land it should be so stated.
erly through the E $\frac{1}{2}$ Sec. 15, thence westerly through the S $\frac{1}{2}$ Sec. 15
and SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 16, thence southerly through NE $\frac{1}{4}$ Sec. 21, T. 19 N., R. 20 E.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is 2000

(b) Description of land to be irrigated parts or all of Sections 9, 10, 11, 14, 15, 16, 21, 22, 23 T. 19 N., R. 20 E.
Describe by legal subdivision, or if on unsurveyed land it

should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

(c) Irrigation will begin about April 1 and end about November 1, of each year.
Month: _____

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

(d) Power to be developed is horsepower.

(e) Works to be located
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section-corner.

(f) Point of return of water to stream not to be returned
Describe in same manner as point of diversion.

(g) Remarks

DESCRIPTION OF PROPOSED WORKS

The water is developed by means of large deep cut or drain ditch.

State manner in which water is to be diverted, whether by dam or other works; whether through pipes, ditches, flumes, or other conduits. If water commencing in NE^{1/4} Sec. 15, T. 19 N., R. 20 E., and extending on a grade is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

less than the natural grade of the country.; thence turning westerly along the south part of Sec. 15 forming a deep cut approximately from 15 to 25 feet deep intersecting all of the underground flow entering said lands as above described. The water will be used by natural flow out of the cut and also by means of pumping to lands above it.

5. Estimated cost of works \$10,000.00

6. Estimated time required to construct works five years.

7. Remarks
For use of applicant.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 20.0 cubic feet per second.

Actual construction work shall begin on or before June 27, 1921.

Proof of commencement of work shall be filed before July 27, 1921.

Work must be prosecuted with reasonable diligence and be completed on or before June 27, 1926.

Proof of completion of work shall be filed before July 27, 1926.

Application of water to beneficial use shall be made on or before June 27, 1928. Proof of the application of water to beneficial use must be filed with State Engineer on or before July 27, 1928.

Proof of ~~filed~~ filed JUN 27 1921

WITNESS MY HAND AND SEAL this 27th day

of May, 1921.

J. L. Senghaas
State Engineer.

This permit is issued subject to all prior rights. The full statutory allowance of 20 c.f.s. of water for the 2000 acres proposed to be irrigated is granted herein notwithstanding the fact that a large portion of the said land probably already holds a water right from some of the surface streams in the vicinity. This amount of water is allowed so that same can be used in case of a shortage of water in any of the surface streams which already irrigate portions of this land, and so that such entirely new land as may be reclaimed and irrigated will have a full water right under this permit. It is understood, as a condition of this permit, that the proof of beneficial use and cultural map filed therewith, shall definitely segregate the areas of entirely new land reclaimed under this permit from any areas which may already be irrigated and entitled to some water right at the date of issuing this permit. As a further condition of this permit a full explanation shall be required at the time of filing proof of beneficial use regarding any water used upon land which already may have some water right, to the end that the appropriator will not finally be given a full water right under this permit for land which is already entitled to a right from any surface streams in the vicinity.

A substantial headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water.

The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that the applicant agrees to the terms herein contained.
